Selective Trial Test Course (STTC)

Computer Based Test (laptop will be provided in class)

This STTC dives deep into the exam, familiarising students with the format, timing, and conditions they'll face on test day. Through weekly trial tests, they'll tackle a variety of question types and learn powerful strategies to succeed in the exam. The key benefits of STTC are:

- **Practice makes perfect:** Regular trial tests build confidence and familiarity with the exam format.
- **Master the strategies:** Learn expert tips and tricks to approach each question type effectively.
- **Detailed feedback:** Analyse your performance with individual results accessible on Cyberschool.
- **Writing mastery:** Get expert feedback on your writing from experienced English teachers.
- **Power up your STTC performance with Cyberschool:** Take full advantage of accessing exclusive Cyberschool activities and resources designed to support your STTC!

Are you ready for the challenge of the Selective School Writing Test?

Success in this exam requires more than just good grammar—it demands the ability to think critically, argue logically, and adapt instantly under pressure.

Our new **Year 5 Writing for Selective (CBT)** course is specifically engineered to bridge the gap between good writing and exam excellence. We focus on the two foundational pillars of success: **Narrative** and **Persuasive** mastery.

Students learn essential writing skills through the most frequently tested formats, including news reports, diary entries, reviews, advertisements, and advice pieces.

Term 2 Roadmap

Each week targets a high-frequency writing form to build versatility:

Week 1: Story	Week 4: Explanation	Week 7: Advertisement	Week 10: Speech
Week 2: Diary Entry	Week 5: Advice Sheet	Week 8: Persuasive	Week 11: Discussion
Week 3: News Report	Week 6: Review	Week 9: Letter	

Our Secret Weapon: The "One Topic" Method

Unlike traditional courses that jump between random subjects, we use one central topic to explore all writing forms. This unique pedagogical approach offers distinct advantages:

- **Form Shapes Thinking:** Students learn that changing the format changes the mindset. A story captures emotion, while a news report demands clinical objectivity.
- **Cognitive Efficiency:** By keeping the topic constant, students don't waste energy "inventing" new ideas. Instead, they focus entirely on mastering the structure and tone required.
- **Separating Fact from Feeling:** We teach students how to isolate emotion, opinion, and evidence—ensuring they never accidentally include personal bias in an objective task.
- **Exam Agility:** Students train their brains to switch writing styles instantly—an essential skill for the CBT.
- **Why it works:** Because examiners reward strict adherence to form, this method makes correct structure second nature.
